

7th May 2018

Nursery and Reception class news

Dates for your diary:

Monday 28th May
to Friday 1st June
- Whit Week
holidays

All children need to have a coat at school every day as our weather is extremely changeable and we play out whatever the weather! We will probably be asking for sun cream next week!

Please ensure that school dinners are ordered from home. This helps the children to know what they will be eating each day.

Topic

It's a short week this week so we will be very busy fitting all of our learning into just four days! This week our focus is 'Vets'. We will be talking about the job that a vet does. We will think about our pets and talk about our experiences of visiting the vets with them. We will also consider whether vets only treat pet animals. It would be helpful if you could talk with your child about any experiences they may have had at the vets.

Literacy

We will be making potions in the mud kitchen to make animals better and writing a list of ingredients. We will spend this week doing lots of activities to reinforce our phonic knowledge. We will play sentence matching games and bingo games.

Numeracy

We will be solving lots of addition problems by using resources or counting on to find the answer.
